Dear NFPA Members:

In light of recent events, NFPA leadership is continuously monitoring developments related to the Coronavirus Disease 2019 (COVID-19), and possible impact on members, operations, and events.

We are working closely with our staff at Management HQ to define and implement contingency plans and best practices around operations and events. At this time, there are no changes to current plans. If we need to adjust, we will communicate those changes with you as soon as we are able.

Please continue to monitor new developments and adhere to the recommendations and guidelines of The Centers for Disease Control and Prevention (CDC) at http://www.cdc.gov/coronavirus.

Sincerely,

Nita Serrano, RP®, AACP
President
